Eliminate leaks on older
units with
Crimped Automotive
Style High Quality
Fittings.

**Crimped High-Pressure AC Fittings.
Made in the U.S.A.**

**Crimped High-Pressure AC Fittings.
Made in the U.S.A.**

Schedule a visit for one of our mobile A/C service techs and trucks.

We upgrade the pressure side of both A/C systems with:

- Crimped fittings from the compressors to the condensers.
 - New high quality hose from the compressors to the condensers.
 - Replace the receiver dryers.
- Evacuate R134, filter it, add oil, o-rings and properly recharge the system.

We warranty our work as well to give you confidence.

Upgrade your A/C systems to the current NC spec of crimped A/C fittings and quit dealing once and for all with the old clamped style hoses.

Offer good until December
31, 2011.

Your investment: Only
\$708.54 (parts and labor) for
a bus with two systems.

Warranty is 6 months from
date of repair for parts and
labor.

Stop patching these old systems and let us fix them right.

Call Woody Corder at 1-800-440-3492 ext. 383 and schedule our visit now.

We can make your buses much more comfortable and more reliable. Carolina Thomas has invested in the tools to do this.
Give us a shot! 1-800-440-3492 ext. 383.
